This is an application for membership in the Evergreen Radio Modelers Association (ERMA). ERMA is a charter club of the Academy of Model Aeronautics (AMA) and as such it is a requirement that any person associated with the club must obtain a current AMA Model Airplane Sporting License before operation of any radio controlled models.

All members must conform to the minimum safety rules recommended by the AMA and all rules and regulations established by ERMA, both currently "in force or as amended by the club".

The club assumes no responsibility to inform you as a new or prospective member of these rules and regulations. It is your individual responsibility to become familiar with both AMA and ERMA rules and regulations. However, any and all questions you may have are welcome and encouraged and we will answer them to the best of our ability or help you find an answer. You may review the Articles of Incorporation, By-Laws or amendments thereto at any regularly scheduled meeting or on the club's web site at [www.erma-rc.com](http://www.erma-rc.com)

Upon receiving your completed application and proof of AMA membership, you will be invited to participate in all appropriate club activities. After we feel that we have had enough time to get to know you, we will vote on acceptance or rejection of your application. IN ADDITION IT WILL BE NECESSARY TO DEMONSTRATE YOUR FLYING ABILITY AND UNDERSTANDING OF OUR FIELD AND AMA RULES BEFORE A CLUB CARD CAN BE ISSUED.

Any member or applicant who disregards the rules and regulations as set forth by ERMA or the AMA will be subject to expulsion from the club and all associated activities after a hearing has been conducted by the Board of Directors concerning all allegations.
